Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for the Columbia Rd, Olmsted Falls Project in surface transportation reauthorization legislation.

The project sponsor for this project is Olmsted Falls and the project is located at Columbia Rd, Olmsted Falls, Ohio, 44138.

The funding is designated to reconstruct 1.5 miles of a 2-lane asphalt road into a wider 2 lane curb and gutter pavement including additional sidewalks. This section of road has currently five times the state-wide average rear-end crash rate.

The project is an appropriate use of taxpayer dollars and is anticipated to benefit drivers. This section of road currently has five times the average number of rear-end collisions and crash rates as other locations throughout the state. Wider pavement and improved traffic flow will provide for safer travel, especially related to the increasing volume of commercial truck traffic on this thoroughfare.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Anthony Gonzalez
